

# 

The Model 220 is the perfect match for beverage distribution applications. Designed for driver productivity, the 220 features a spacious cabin with an ergonomic interior and outstanding visibility. The cabover design and tight turning radius deliver superior maneuverability, a key advantage in congested urban environments. All routine maintenance checkpoints are easy to access and the standard powertrain, including the versatile PACCAR PX-7 engine and Allison automatic transmission delivers seamless performance. The 220 comes standard with air disc brakes for maximum safety and is available with a GVWR of 26,000 to 33,000 lbs.

#### **MODEL 220 SPECS**

- PACCAR PX-7
- Power: 220 260 HP
- Torque: up to 660 lbs.-ft.
- Low Chassis Weight for Increased Payload
- Collision Mitigation System Available

For more information on the Model 220, contact your local Peterbilt dealer or visit **peterbilt.com**.

## VISIBILITY

Exceptional visibility results from the combination of an expansive windshield and large side windows.

Peterbilt

#### **INTERIOR** The spacious inte

The spacious interior features a wrap-around dash with a driver information display, a multifunction steering wheel, and ample storage including overhead and rear-wall compartments.

### SERVICEABILITY

Service checks are easy. The front panel opens for quick access to the air filter, coolant, refrigerant, washer fluid, power-steering fluid, engine oil and 12-volt electrical outlet.
